

HOSTED EXCHANGE

Simplify your Business with Microsoft Exchange.

THE BENEFITS FOR YOUR BUSINESS

INCREASE PRODUCTIVITY

Exchange gives your staff the opportunity to maximise their productivity by allowing them to keep their emails, tasks, calendars and contacts on all their devices

COLLABORATE WITH COLLEAGES

Hosted Exchange allows you to work side by side with your colleagues. Share your contacts, calendars and tasks with whomever you choose within your organisation.

BACKED UP ALWAYS

Microsoft gaurentees a 99.9% uptime on Hosted Exchange, meaning you will never have to worry about being disconnected again. All your mail is backed up to the cloud.

Implementation

Hosted Exchange is easy to setup. It requires some preparation to make sure that the migration to your improved workspace is stress free.

FIRST STEP:
Choose your Plan

Choose your plan according to your space requirements and whether you need data loss prevention (highlighted in the last paragraph in plan 2).

SECOND STEP:
Configure Hosted Exchange

We will configure your hosted exchange online for you. No fuss or hassles. All we need is a list of your email accounts you want us to migrate.

THIRD STEP:
Backup current mail files

This is the most important step. We will create a backup of your old emails so that you have them for reference. We can simply import them into your new mailbox when done.

FOUR STEP:
Create your new account

Once your backup is complete, we will create a new Outlook Profile for you, and setup your new Exchange account. Once it is complete, we can link your existing mails to the new profile.

Keep your data safe and experience less down-time. Microsoft guarantees a 99.9% uptime and have redundancy & backup protocols in place.

| About Exchange

Microsoft Exchange is a collection of applications that enable digital messaging and collaboration in an enterprise IT environment.

Work Smarter. Anywhere

Microsoft Exchange allows you to accomplish more from anywhere, with a rich, business-class email experience across all platforms.

Phones, Tablets, Desktops, Laptops or directly from your browser of choice; Microsoft Exchange lets you be connected with your clients via email, in control of your tasks, and reminds you of your appointments with the built in Calendar feature and Manage your contacts all from one location.

Easy to Use

Hosted Exchange integrates with supported Outlook clients, allowing your users to enjoy the familiar experience of Outlook, with all the power of Exchange.

Security

Exchange Online helps protect your information with advanced capabilities. Anti-malware and anti-spam filtering protect mailboxes.

Manage your organization efficiently with the Exchange admin center, an easy-to-use, web-based interface.

Simplify your Business with Microsoft Exchange

It's easier than ever to provide your users with the business email they need to stay productive. Automatic patching eliminates the time and effort of maintaining your system.

Give your users an In-Place Archive, so they can keep all their important data in one place and provide them with anywhere access to

email, calendar, and contacts on all major browsers and across devices. Integration with Outlook means they'll enjoy a rich, familiar email experience with offline access.

With a guaranteed 99.9% uptime, financially-backed service level agreement, you can count on your email always being up and running.

Tag your contacts with @Mentions. Use tags to alert members in your organisation to specific emails.

Plan 1

Each user gets 50 GB of mailbox storage and can send messages up to 150 MB in size

Users can connect supported versions of Outlook to Exchange Online, so they can use the rich client application they already know

For web-client access, Outlook on the web provides a premium browser-based experience that matches the look and feel of the full Outlook client

Stay focused on the most important messages with Clutter, which applies machine learning to clean up your inbox and set up rules that match the way you work

Compare calendars to schedule meetings and access collaboration features, including shared calendars, groups, the global address list, external contacts, tasks, conference rooms, and delegation capabilities

Every mailbox is protected with premier anti-malware and anti-spam protection via Exchange Online Protection
Keep your inbox clean by automatically moving old messages to an In-Place Archive

Plan 2

Includes all the features of Exchange Online Plan 1, plus unlimited storage, hosted voice-mail, and data loss prevention.

Each user gets 100 GB of mailbox storage and can send messages up to 150 MB in size

Take advantage of unlimited storage (100 GB of storage in the user's primary mailbox, plus unlimited storage in the user's In-Place Archive)

Take advantage of hosted Unified Messaging services that provide call answering, a dial-in user interface, and company automated attendant capabilities

Control sensitive business data with built-in data loss prevention (DLP) policies based on regulatory standards such as personally identifiable information (PII) and payment card industry (PCI), which help to identify, monitor, and protect sensitive data through deep content analysis

Let them know you are away. Exchange lets you set automatic replies while you are away on leave or out the office.
